Re: CC Docket No. 02-33 – Notice of De-Tariffing Common Carrier  
Wireline Broadband Internet Access Transmission Services  
Coastal Utilities, Inc.

Dear Ms. Dortch,

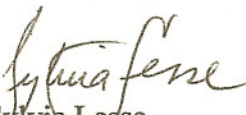

On behalf of Coastal Utilities, Inc. (the "Company") and pursuant to the Commission's Report and Order in CC Docket No. 02-33 (rel. Sept. 23, 2005) (the "Order"), we provide formal notification that the Company intends to offer wireline broadband Internet access transmission service on a de-tariffed basis. Consistent with the Order, the terms and conditions of this service will be posted on our website and generally available to prospective customers.

To effect this transition, the Company, an issuing carrier of MRTC F.C.C. Tariff No. 1, will provide for revision of appropriate sections of that tariff.

All customers of the Company currently receiving Digital Subscriber Line service were provided notification of de-tariffing by electronic mail today. A representative copy of the notice is attached. In addition, a copy of this filing, including the attached representative notification, is being sent to the Governor of the State of Georgia, the Georgia Public Service Commission, and the Special Assistant for Telecommunications, Department of Defense.

Please refer any questions or correspondence to the undersigned.

Respectfully submitted,

  
Sylvia Lesse

VIA E-Mail Delivery

Mr. Ken Amburn  
Chief Operating Officer  
Coastal Long Distance Services, Inc.  
103 South Fifth Street  
Mebane, North Carolina 27713

Dear Mr. Amburn:

This letter provides formal notification that on or after April 14, 2006, Coastal Utilities, Inc. (the "Company") will no longer offer tariffed DSL Access Services to the public in its ILEC serving area in Georgia, an area including Hinesville, Ft. Stewart and surrounding areas. Currently, DSL Access Service is offered by the Company pursuant to its interstate access tariff, MRTC F.C.C. Tariff No. 1 (the "Tariff"). As required by the FCC, the Company will continue to offer services under the terms and conditions offered under the tariff on a grandfathered basis for a period of one year.

The DSL Access Services to be detariffed typically are used to provide high speed broadband transmission services to an internet service provider's end user customers. While we are not discontinuing this service, the rates, terms and conditions of service will no longer be provided under the Tariff but instead will be posted on our website and generally available to prospective customers.

These actions are taken in accordance with the FCC's Report and Order, released September 23, 2005, In the Matter of the Appropriate Framework for Broadband Access to the Internet Over Wireline Facilities. See FCC Document "FCC 05-150" and FCC Docket "CC Docket 02-33".

Please contact me if you have any questions:
